Contents

VOLUME 35, NUMBER 1, JANUARY 1996

K. Sjøtun, S. Fredriksen, and J. Rueness. Seasonal growth and carbon and nitrogen content in canopy and first-year plants of *Laminaria hyperborea* (Laminariales, Phaeophyceae) . . . 1–8

H.-G. Choi and I. K. Lee. Mixed-phase reproduction in *Dasysiphonia chejuensis* (Rhodophyta) from Korea 9–18

R. J. Lewis. Chromosomes of the brown algae. (Phycological Reviews 16) 19–40

In Memoriam 41–43

Å. Forsberg and P. Lindblad. The *Ophrydium—Chlorella* (Chlorophyceae, Chlorophyta) symbiosis: an ultrastructural characterization (Research Note) 44–47

A. J. K. Millar, G. W. Saunders, I. M. Strachan and G. T. Kraft. The morphology, reproduction and small-subunit rRNA gene sequence of *Cephalocystis* (Rhodymeniaceae, Rhodophyta), a new genus based on *Cordylecladia furcellata* J. Agardh from Australia 48–60

D. G. Müller, M. Bräutigam and R. Knippers. Virus infection and persistence of foreign DNA in the marine brown alga *Feldmannia simplex* (Ectocarpales, Phaeophyceae) 61–63

B. Meyer and H. Håkansson. Morphological variation of *Cyclotella polymorpha* sp. nov. (Bacillariophyceae) 64–69

J. P. Kociolek, L. Escobar and S. Richardson. Taxonomy and ultrastructure of *Stoermeria*, a new genus of diatoms (Bacillariophyta) 70–78

Book reviews 79–80

Published 22 February 1996

VOLUME 35, NUMBER 2, MARCH 1996

J. A. Raven, J. Beardall, A. M. Johnston, J. E. Kübler, and S. G. McInroy. Inorganic carbon acquisition by *Xiphophora chondrophylla* (Phaeophyta, Fucales) 83–89

M. Grilli Caiola, A. Canini, and R. Ocampo-Friedmann. Iron superoxide dismutase (Fe-SOD) localization in *Chroococcidiopsis* sp. (Chroococcales, Cyanobacteria) 90–94

J. M. Huisman. The red algal genus *Coelarthrum* Børgesen (Rhodymeniaceae, Rhodymeniales) in Australian seas, including the description of *Chamaebotrys* gen. nov. 95–112

O. V. Babanazarova, Ye. V. Likhoshway, and D. Yu. Sherbakov. On the morphological variability of *Aulacoseira baicalensis* and *Aulacoseira islandica* (Bacillariophyta) of Lake Baikal, Russia 113–123

M. L. Vis and R. G. Sheath. Distribution and systematics of *Batrachospermum* (Batrachospermales, Rhodophyta) in North America. 9. Section *Batrachospermum*: description of five new species 124–134

R. Riosmena-Rodríguez and D. A. Siqueiros-Beltrones. Taxonomy of the genus *Amphiroa* (Corallinales, Rhodophyta) in the southern Baja California Peninsula, México 135–147

L. Mackenzie, D. White, Y. Oshima, and J. Kapa. The resting cyst and toxicity of *Alexandrium ostenfeldii* (Dinophyceae) in New Zealand 148–155

S. Miyamura, T. Hori, T. Ohya, T. Tohma, and T. Ikawa. Co-localization of chloroplast DNA and ribulose-1,5-bisphosphate carboxylase/oxygenase in the so-called pyrenoid of the siphonous green alga *Caulerpa lentillifera* (Caulerpales, Chlorophyta) 156–160

C. M. Pueschel, T. J. Miller, and B. B. McCausland. Development of epithallial cells in *Corallina officinalis* and *Lithophyllum impressum* (Corallinales, Rhodophyta). 161–169

T. Hasegawa, H. Miyashita, M. Kawachi, H. Ikemoto, N. Kurano, S. Miyachi, and M. Chihara. *Prasinoderma coloniale* gen. et sp. nov., a new pelagic coccoid prasinophyte from the western Pacific Ocean 170–176

In Memoriam 177–179

In Memoriam 180

Published 29 March 1996

VOLUME 35, NUMBER 3, MAY 1996

X. Ariño, M. Hernandez-Marine, and C. Saiz-Jimenez. *Ctenocladus circinnatus* (Chlorophyta) in stuccos from archaeological sites of southern Spain 183–189

C. A. Scholin, K. R. Buck, T. Britschgi, G. Cangelosi, and F. P. Chavez. Identification of *Pseudo-nitzschia australis* (Bacillariophyceae) using rRNA-targeted probes in whole cell and sandwich hybridization formats 190–197

D. U. Hernández-Becerril, and M. E. Meave del Castillo. The marine planktonic diatom *Rhizosolenia robusta* (Bacillariophyta): morphological studies support its transfer to a new genus, *Calyptrella* gen. nov. 198–203

Y. M. Chamberlain. Lithophylloid Corallinaceae (Rhodophyta) of the genera *Lithophyllum* and *Titanoderma* from southern Africa 204–221

E. Tryfon. *Pannus spumosus* (Chroococcales, Cyanoprocaryota) from Lake Mikri Prespa, Greece (Research Note) 222–224

R. Kuhlenkamp. New observations on the Tilopteridaceae (Phaeophyceae). II. Culture studies determine *Phaeosiphoniella* as an arctic species and crusts as systems for perennation and propagation 225–233

M. Vesk, T. P. Dibbayawan and P. A. Vesk. Immunogold localization of phycoerythrin in chloroplasts of *Dinophysis acuminata* and *D. fortii* (Dinophysiales, Dinophyta) (Research Note) 234–238

S. Khan, O. Arakawa, and Y. Onoue. A toxicological study of the marine phytoflagellate, *Chattonella antiqua* (Raphidophyceae) 239–244

Martha E. Apple, Marilyn M. Harlin, and Joanna H. Norris. Characterization of *Champia parvula* (Rhodophyta) tetraspore mucilage and rhizoids with histochemical stains and FITC-labelled lectins 245–252

B. Karlson, D. Potter, M. Kuylenstierna, and R. A. Andersen. Ultrastructure, pigment composition, and 18S rRNA gene sequence for *Nannochloropsis granulata* sp. nov. (Monodopsidaceae, Eustigmatophyceae), a marine ultraplankter isolated from the Skagerrak, northeast Atlantic Ocean 253–260

P. García-Jiménez, R. R. Robaina, A. Luque, and I. Tsekos. Glycerol-activated cellular division and biosynthetic activity during growth and morphogenesis of carpospore seedlings of *Grateloupia doryphora* (Cryptonemiales, Rhodophyta) 261–269

Wendell. Q. Sun. Mechanism of survival of algae in desiccated soils (Letter-To-Editor) . . 270–271

Alphabetical Listing of Members 273–293

Geographic Listing of Members 294–296

Instructions for Authors 297–298

Published 11 June 1996

VOLUME 35, NUMBER 4, JULY 1996

L. M. A. Santos, M. Melkonian and G. Kreimer. A combined reflection confocal laser scanning, electron and fluorescence microscopy analysis of the eyespot in zoospores of *Vischeria* spp. (Eustigmatales, Eustigmatophyceae) 299–307

Trevor A. Norton, Michael Melkonian and Robert A. Andersen. Algal biodiversity . . . 308–326

K. Y. Kim and I. K. Lee. The germling growth of *Enteromorpha intestinalis* (Chlorophyta) in laboratory culture under different combinations of irradiance and salinity and temperature and salinity 327–331

L. Krienitz, V. A. R. Huss and C. Hümmer. Picoplanktonic *Choricystis* species (Chlorococcales, Chlorophyta) and problems surrounding the morphologically similar '*Nannochloris*-like algae' 332–341

Jacob Larsen. Unarmoured dinoflagellates from Australian waters II. Genus *Gyrodinium* (Gymnodiniales, Dinophyceae) 342–349

Bryan Sakamoto, Hiroshi Nagai and Yoshitsugi Hokama. Stimulators of *Gambierdiscus toxicus* (Dinophyceae) growth: the possible role of gambieric acid-A as an endogenous growth enhancer 350–353

G. Hansen, Ø. Moestrup and K. R. Roberts. Fine structural observations on *Gonyaulax spinifera* (Dinophyceae), with special emphasis on the flagellar apparatus 354–366

Jahn Throndsen. Note on the taxonomy of *Heterosigma akashiwo* (Raphidophyceae) (Research Note) 367

Catherine Riaux-Gobin. *Ditylum brightwellii* (Bacillariophyceae): resting spores at the surface of a shallow sediment (Gulf of Lions, Mediterranean) and revival tests (Research Note) . . 368–371

Book Reviews 372–373

Published 19 July 1996

VOLUME 35, NUMBER 5, SEPTEMBER 1996

W. Eikrem. *Chrysochromulina throndsenii* sp. nov. (Prymnesiophyceae). Description of a new haptophyte flagellate from Norwegian waters 377–380

M. Elbrächter and E. Schnepf. *Gymnodinium chlorophorum*, a new, green, bloom-forming dinoflagellate (Gymnodiniales, Dinophyceae) with a vestigial prasinophyte endosymbiont 381–393

E. Paasche, S. Brubak, S. Skattebøl, J. R. Young and J. C. Green. Growth and calcification in the coccolithophorid *Emiliania huxleyi* (Haptophyceae) at low salinities 394–403

S. J. M. Droop. The identity of *Diploneis splendida* (Bacillariophyta) and some related species 404–420

M. Masuda, K. Kogame and M. D. Guiry. Life history of *Gymnogongrus griffithsiae* (Phyllophoraceae, Gigartinales) from Ireland: implications for life history interpretation in the Rhodophyta 421–434

N. Daugbjerg. *Mesopedinella arctica* gen. et sp. nov. (Pedinellales, Dictyochophyceae) I: fine structure of a new marine phytoflagellate from Arctic Canada 435–445

J. M. Kain. Photoperiodism in *Delesseria sanguinea* (Ceramiales, Rhodophyta) 1. The phases and sexes differ 446–455

T. Friedl. Evolution of the polyphyletic genus *Pleurastrum* (Chlorophyta): inferences from nuclear-encoded ribosomal DNA sequences and motile cell ultrastructure 456–469

L. Düwel and S. Wegeberg. The typification and status of *Leptophytum* (Corallinaceae, Rhodophyta) 470–483

Published 26 September 1996

VOLUME 35, NUMBER 6, NOVEMBER 1996

Announcement 489

A. Skovgaard. Engulfment of *Ceratium* spp. (Dinophyceae) by the thecate photosynthetic dinoflagellate *Fragilidium subglobosum* 490–499

T. Cavalier-Smith and E. E. Chao. 18S rRNA sequence of *Heterosigma carterae* (Raphidophyceae), and the phylogeny of heterokont algae (Ochrophyta) 500–510

S. I. Blackburn, M. A. McCausland, C. J. S. Bolch, S. J. Newman and G. J. Jones. Effect of salinity on growth and toxin production in cultures of the bloom-forming cyanobacterium *Nodularia spumigena* from Australian waters 511–522

V. Cepák. Nucleoid morphology in the coccal cyanophyte *Cyanothece halobia* (Chroococcales, Cyanophyta)—a DAPI fluorescence study 523–527

Y. Iryu and S. Matsuda. *Hydrolithon murakoshii* sp. nov. (Corallinaceae, Rhodophyta) from Ishigaki-jima, Ryukyu Islands, Japan 528–536

M. Aboal and L. Fletcher. Structure and ecology of *Placoma vesiculosum* (Entophysalidaceae, Cyanophyceae) from a southeastern Spanish saltwater torrent 537–541

M. T. Fujii and M. Cordeiro-Marino. *Laurencia translucida* sp. nov. (Ceramiales, Rhodophyta) from Brazil 542–549

M. Masuda, T. Abe, T. Suzuki and M. Suzuki. Morphological and chemotaxonomic studies on *Laurencia composita* and *L. okamurae* (Ceramiales, Rhodophyta) 550–562

N. Daugbjerg. *Mesopedinella arctica* (Pedinellales) II. Phylogeny of *Mesopedinella*, including a cladistic analysis of Dictyochophyceae 563–568

Book Review 569
